

GPS Survival Radios (McUmbur)

DESCRIPTION OF EFFORT

This requirement is for a training package of 30 PRC-112B/C survival radios for 10th Air Force fighter, rescue and special operations units. The PRC-112B (sometimes referred to as the Hook 112) has become the standard survival radio in Operations Northern and Southern Watch (ONW and OSW). Among the capability of these radios is an internal Global Positioning System (GPS) receiver and the ability to communicate with rescue forces by secure data burst transmission Working contract vehicle with NAVAIR
